

## World Sepsis Day - September 13 One Day - One Vision - All Year Effort

### SPOT SEPSIS IN NEWBORNS (UP TO 1 MONTH OF AGE)

Any newborn with diagnosed or suspected infection **who...**

- is very drowsy or won't wake up
- is feeble or not crying
- is breathing very fast (more than 1 breath a second) or has labored breathing
- feels abnormally cold to the touch
- has pale, clammy, or mottled skin
- has convulsions or seizures
- shows poor or no sucking, or poor feeding
- has been persistently vomiting for 24 hours
- has passed no water or had a wet diaper all day

...might have sepsis.

**Act fast. Contact your local hospital or physician and ask:  
"Could it be sepsis?"**

## World Sepsis Day - September 13 One Day - One Vision - All Year Effort

### ABOUT US

World Sepsis Day is an initiative by the Global Sepsis Alliance to raise awareness for sepsis on September 13 every year. The GSA is a non-profit charity organization with the mission to provide global leadership to reduce the worldwide burden of sepsis.

### FACTS ABOUT SEPSIS

Sepsis is a global health crisis:

- It affects 47 to 50 million people annually
- 11 million die - 1 death every 2.8 seconds
- Survivors may face lifelong consequences

### OUR VISION

A world free of sepsis.
